Subject: Speaker Problem - Wiring??? Posted by Drew on Fri, 19 Mar 2004 01:57:05 GMT View Forum Message <> Reply to Message

When I fade to the rear, only the right rear speaker is on. When i fade to the front its the right front and left rear. the left front is never on. so the left rear thinks its the left front. what do i do to fix this problem???Thanks alot for any help
