There are those 30 or so names.... some from down inchicago, other one far away from my side of the statein Minnesota. I cut about 4 names that always come up bounced becausethe parties were not considering that my mail may not get througha company firewall. Goodbye to those. A fifth one received mymonthly message and said that I have them on this list bymistake. It was one of those Mrs. and Mr email addresses...oh brother. That's like having an email address called The Smiths@anywhere.isp You get the idea.In between I have made at least one message a month but thereis little crosstalk. So I don't know what the future of activities might be.AudioRoundtable is on my desktop. I communicate with this listthe most. And I promote the list when I do get a mail fromsomebody about speakerbuilding.
