Subject: Peavey 10" Scorpions Posted by Larry Acklin on Thu, 13 May 2004 12:51:44 GMT View Forum Message <> Reply to Message

Does any one have the t/s parameters for the Peavey Scorpion 10" driver? I'd like to try some in the midhorn project (have 4) but are they close enough to the Delta (or is it alpha now) 10" to sound reasonable? Maybe just build a horn and try it out....Larry
