Randy, I just love a happy ending to a quest! And the nice thing about the 1 pi and 2 pi speakers is that they are simple and allow some error without screwing up a project. I myself am woodworking challenged, so I use other folks speaker cabinets to try my "breadboarded" speaker systems. Another feature of the pi speaker family is the FREE assistance online from Wayne, and sometimes the others when Wayne is busy. You don't get that at Best buy!!! Glad to hear you are enjoying the "total package"! Regards, Ron
