Subject: Re: Mixers and Mixing Boards Posted by Wayne Parham on Mon, 10 Sep 2007 19:33:22 GMT View Forum Message <> Reply to Message

I'd start a thread in the ProAudio forum. That's the forum for prosound equipment (other than speakers, which have their own forum dedicated to them). If you already have a mixer or processor and want to know how to set it up, talk about that in the ProSound forum. Prosound speakers, technologies and placement is discussed in the ProSpeakers forum.
