Russell; saw some of your posts on the Altec forum. Very informative, I hope you don't mind if I ask some questions in the near future, one of which is do you use the 515g in the A7's? Plenty more where that came from. Thanks much for the heads up on the iguanas. I get the Tico Times because I too have a plan for Costa Rica, providing the house prices slow down, jeez, what; they have doubled in 3 years! Thanks J.R.(Do you surf?)
