I've wanted to work the RS225 every since they got high praise from Dennis Murphy, and have had in my mind a WMTMW design. I was glad to see Jim's design and how well it turned out.I think that, if I don't build the Statements, I will work out a simmilar design using paper mids (Seas MCA15RCY possibly) and a silk dome tweeter. My wife may have other plans however, as she loved Danny's Alpha LS's and is leaning towards my building the LS-6 or LS-9 project.Keep us posted on the progress.Bill
