Hello. I've ordered the kits for use with Bottlehead Paramours (3.5 W/C) but then ran across this old
post.[http://db.audioasylum.com/cgi/m.mpl?forum=hug&n=9903&highlight=studio+Wayne+Parham&r=&session=Did I order the wrong thing?](http://db.audioasylum.com/cgi/m.mpl?forum=hug&n=9903&highlight=studio+Wayne+Parham&r=&session=Did%20I%20order%20the%20wrong%20thing?) Will I have no bass under 80/90 hz? That would be
dismal. Wayne?
