I bought 4 lots of, and I quote,: " (5) Aerovox 19.5uF Motor run capacitors. \$4.50 each."I think that's too cheap for 5 pieces so I figure its an E-Bayism and buy it now for a quantity of 4. \$30 with shipping. Then I wait to see if I get 4 pieces or twenty. They just came. 20, Brand new oil caps! A buck fifty each! Hey, they all have a .5 megohm resistor across the terminals. Never seen that before. Leave it? Or is it for storage?
