Subject: Re: Terminology might be wrong - but principles apply Posted by Wayne Parham on Sat, 27 Nov 2004 17:51:50 GMT View Forum Message <> Reply to Message

What you're saying makes sense, and that's the point. I think it's important to minimize nulls throughout the listening area, and that's the issue to be addressed. The thing I'm focused on is outlined in the post called "Baffle spacing, phase angles and time alignment, revisited."
