I almost forgot.Not every driver is suited to horn use. I'm not sure what all the characteristics are, but a rising SPL level on a graph is an example of a "horn friendly" characteristic. I used a PHL driver which PHL suggests for possible horn use. Dr. Edgar played with a lot of drivers years ago to find the best to use. I'm sure Wayne chose his drivers for specific characteristics as well which the Focal's may or may not satisfy.Grant.
