We primarily sell kits and finished loudspeakers. But we do sell raw drivers and components too.Eminence doesn't like their distributors showing prices less than their "manufacturer's advertised price," which is double the street price. I wasn't going to play the "click for price" game, so we pulled the raw driver prices from our website. But we still sell 'em, and we still sell 'em at a better price than anyone around. Please write or call and let me know what you're interested in and I'll get you fixed up.
