Hi Everyone., Anyone interested in a GPAC audio meet? I'd be willing to host one (been a while since I did that anyways). Let me know. Either this coming, Saturday, or the next one, or even the next. Let me know what works for you guys (let me know by email) and i'll get back with a definite day). Time: 2-5 pm. Let me know what Saturday works for folks who are interested. -akhilesh
PS We'll be listening to a lot of gear: Klipschorns (updated crossover) with an 845 amplifier, teresonic magus lowther dx3 single drivers driven by a 45 amp, the DCa 5.5 drivers in a pavo horn and my altec Vott variant triamped with a pushpull 12ax7/6x4 for the midwoofs, and a set 12ax7/6x4 for the horns. Heck we can even listen to a nice old pair of restored adventures that sound pretty sweet. I don;t have much space for anyone else's gear, but folks are encouraged to bring their own program material. If someone has a sweet pushpull amp (6x4 or 6x4) please let me know (we can use that for the dca setup). -akhilesh
