Subject: Think I got it now :) Posted by Kim Schultz on Sat, 07 May 2005 20:42:12 GMT View Forum Message <> Reply to Message

If you take cos45°(14.5") you get 10.25". And if you take (10.25"/11)inv cos you get 21.28°That gives a mouth of 12.5" x 25". Using 11" as the top and bottom with 3/4" wood and 12" x 24" mouth, the depth is 11.09", that s close enough, so this is how I'll build them. I'll begin cutting wood on monday. Regards Kim
