If you take $\cos 45^{\circ}(14.5")$ you get 10.25".And if you take $(10.25"/11)$inv cos you get 21.28°That gives a mouth of 12.5" x 25".Using 11" as the top and bottom with 3/4" wood and 12" x 24" mouth, the depth is 11.09", that´s close enough, so this is how I´ll build them.I´ll begin cutting wood on monday.RegardsKim
