Wayne, Can you send me the 2 Pi tower plans, incl. crossover? And how much is shipping for 2 Kits (93905 Destination)? I live in the SF Bay Area/Monterey, not sure if there is anybody close by to hear some of your speakers, but I agree that would be the best. With the 2 PI towers, will I be able to 'see' the soundstage, and instruments? famfi@yahoo.com
