Good post. I'm wondering too; Time for a head count.Here's what I know off the top of my head,

year with JBL 2226, B&C DE250 and top-of-the-line crossovers.Keith Larson of Smith and Larson Audio will be bringing his latest testers and will be doing a seminar on electro-mechanical and acoustic measurements.Bob Brines will be bringing his latest and greatest stuff and will be doing a presentation on quarter-wave pipes.Element Cable will be there.Duke LeJeune of AudioKinesis will be bringing his speakers, and if I remember, he has something new.Great Plains Audio is bringing some of their stuff.MaxxHorn is going to be there with their speakers.SoundStage! will be there.I know I'm forgetting a lot of vendors and equipment. Please forgive my omissions and add to the list.
