Yeah, I understand. But I did like the Mad Max movies. Yahoo Serious is kinda funny too, movies like Young Einstein and Wreckless Kelly are a lot of fun. I can still hear him saying he's gotta split the beer atom! P.S. I just realized that Hugo Weaving was in Wreckless Kelly. Hugo plays Elrond in Lord of the Rings and the anti-hero Agent Smith in The Matrix. Other Aussie info is that the Matrix was filmed in Australia, as was Dark City, another really cool movie. Man, now that I look at it, you guys are doing a lot of cool stuff down under!
