Subject: Re: Mid-horn "Chamber" Posted by Wayne Parham on Thu, 25 Aug 2005 20:32:30 GMT View Forum Message <> Reply to Message

That's the frequency the box is tuned to, set by its size and port dimensions. If you're talking about displacing some area in the bass bin to contain everything in the same cabinet, you'll want to make sure the tuning remains the same.
