Subject: Re: Woofer Tester 2 Posted by Spinjack on Mon, 14 Nov 2005 22:24:01 GMT View Forum Message <> Reply to Message

Yeah, I like your method. Except I don't have a signal generator, an oscilloscope, or a selaed box of know volume that can accept a wide range of drivers. I think I've found some signal generator software, but the tester seemed to be the quick and easy way (Yoda would be soooo disappointed). Also, getting the Vas values seemed to require quite a bit of through away work. Is there another way to calculate Vas without the need to build a sealed box of known volume, including driver volume?
