Subject: Re: Question About Crossover Cutout in 2 Pi Towers Posted by Wayne Parham on Tue, 27 Dec 2005 02:38:25 GMT View Forum Message <> Reply to Message

The connector panel cutout needs to be $2 \frac{1}{8} \times 2 \frac{7}{8}$. We center them 9" down from the top in back. Feed the wires through and reach into the midwoofer cutout to connect them to the drivers.
