I posted this in the swap meet section, I figured Id post here too since many of you might not visit that section.6 brand new authentic CTS KSN-1056 tweeters, same as 1036 but all black. $10 each.Studio One Pis.. $80 for the pair , or just take the parts , I will include all the guts, wiring , binding posts etc. I'll even throw in some 2.75" port material if you choose to just buy the parts. Shipping might be expensive to buy the speakers and they are not finished particular great anyways.
