Subject: Re: LSAF 2008 - Show Coverage, Seminar Recordings, Slideshows and Handouts Posted by Shane on Sat, 17 May 2008 09:58:33 GMT View Forum Message <> Reply to Message

Yep Duke, that's the recording. That has to be one of the best recordings I've ever heard in any genre. Just spectacular sounding.

I'd love to talk to Richard about the pre, but my lack of specific knowledge about tube circuitry would more than likely frustrate him to no end I just thought it was an interesting pre that sounded good and would love to see a schematic to try and build one.
