Subject: Re: Corner horns with no corners? Posted by Wayne Parham on Wed, 15 Feb 2006 16:00:15 GMT View Forum Message <> Reply to Message

Sounds like a very good plan. Just listen for sympathetic vibrations when you're done. Give it the knuckle rap test - It should sound dead - Then also pay attention to the sound of the panel when music is played. Naturally, you don't want it to make any sound.
