Sorry, I do not have plans for speakers using Eminence Beta Series drivers. But I can tell you that the Beta Series is very much like the Alpha Series. The Alpha 8 and 10 are both very nicely suitable for small bass-reflex speakers. They sound rich and full. To be honest, I like them better than the Beta 8 and 10, which I think sound a little thin. As for the larger 12" and 15" drivers, the larger Alphas need a huge box. For that matter, most of Eminence's larger pressed-frame speakers are tuned to need huge boxes.
