Hy. Wayne . regarding to the seven pi xover what if I go to use 25 watts rated wirtewound to R1,2,3,4 instead of the recomended 40 watts rating. also the values that madisound sell are very aproximate 3.9 ohm (R3) instead of 4 ohm and 8.2 ohm to (R4) instead (8.0 ohm ) . could buy only the seven pi xover from you Wayne . please quote me .thanks BTW Im planning to use the Alpha 10 as mid-driver.Thanks
