There's a DVD re-release of Russell Crowe's breakout film from downunder called Romper Stomper. Be advised it is a punkfilm and it is pretty violent but as a "slice of life" show, it's up there with the film "Kids." And "Once Were Warriors" gives a good take on NZ native peoples in the modern world. You ever see "Walkabout"? "Outback"? "Whale Rider"? Sorry if I overdid it. ;-)
