THANKS!I'm really excited to try these... I'll keep my fingers crossed.I'm getting positive resposes in regards to using this x-over with the K-12s.For giggles I might grab a pair of the Eminence x-overs as backups to try.I'm hoping after the wedding to build a pair of Theatre 3s for the living room... the K-12s will go back to their original job as my stereo bass guitar rig Hey, keep your eyes out for a package from Tee Pee Records... I'm sending you some music to check out.Cheers,David
