Quote Skip: I understand there's a new amp in your life. I'd be interested to hear how it sounds on your towers once you've changed the coils, and possibly the caps. Well, I don't have it quite yet. I've put a deposit down on it and plan on getting it in a couple weeks while it's gone over and tested/tweaked. Looking forward to hearing it on the stock Towers, then we'll decide on new parts or not.
