I'm looking for help with a Pi alignment for following car subwoofer. (I use this alignment with an Altec 515-8g at home and love it but someone else made the calc for me.)Driver: Image Dynamics IDQ10 D2 V.2Dual voice coil. Will series wire for 3.7 ohms ReFs 23 hzQes .345Qms 4.77Qts .322Vas 2.26 cu ftSd 350 cm2SPL 89.4I would like to use a 2.5" dia portThe manufacturer has some recommendations but have no idea what alignments.Thanks!!Jim D.
