Hy Wayne . I must use the Beta 15 because get them very cheaply here in eminence mexico dealer . So after modeling using Winlsp give a box of 11.25 f3 tuned to 25.6 hz with twin 4x6 ports . My question Wayne Is this modeling through Winlsp according with your Pi alignment . Oh what say the Pi modeling to this woofer with this specs--- fs 35 ---Qms 8.10 ---Qes 0.63 ---Qts 0.58 ---Vas 334.4 ---Xmax 4 mm ---pwr 300 -- .thanks for your help.
