Hy Wayne . I must use the Beta 15 because get them very cheaply here in eminence mexico dealer . So after modeling using Winlsp give a box of 11.25 f3 tuned to 25.6 hz with twin 4x6 ports . My question Wayne Is this modeling through Winlsp according with your Pi aligmnment . Oh what say the Pi modeling to this woofer with this specs--- fs 35 --- Qms 8.10 --- Qes 0.63 --- Qts 0.58 --- Vas 334.4 --- Xmax 4 mm --- pwr 300 -- .thanks for your help.
