I'm amazed at the list compiling in my head. Let's see, specifically with 300B I've used Theatre 4 Pi, Studio 2 Pi with Piezo, Vifa DX-25 and Morel tweeters, Studio 2 Pi Tower, and Theatre 4 Pro.Money talks, the Theatre 4 Pro is best followed by the Studio 2 tower.If you have the corners there's no doubt the 7 Pi configs are best.But in the end, you'll have to judge.
