Wayne, I came across these parts browsing, and was wondering if you knew anything about these tweeters (the $9 one and the $32 one? Do you think the ultrahigh one with the horn it's used with might be a good supertweeter to put on the 4 series? I couldn't find any specs on it on the JBL www-site. If you find the pic of the L890 speaker, this tweeter's a cute little guy.
JBL L890 parts
