Subject: Re: Super Tweeter? Posted by Matts on Thu, 07 Sep 2006 20:31:55 GMT View Forum Message <> Reply to Message

I looked some more on google- it's used from 20kHz-40kHz range in the JBL speakers, and they use a 4-0hm resistor in series to attenuate it for use in a 90 dB/m sensitive system. Might be more of a psychological benefit...
