I looked at the T-Amps (if we are thinking about the smae things,

http://www.audiosector.com/Im3875.shtml). Definitely high quality stuff. Peter definitely has an eye for detail.I'm thinking the same thing about those drivers. Though \$70 for a pair of Fostex drivers and then another \$60+ for the amp to drive them plus a sub (\$150+) to fill out the bottom end and it starts to get pricey for PC speakers.
