Subject: Re: ultimate home theater speaker for use w/ sub Posted by Wayne Parham on Sat, 30 Dec 2006 16:52:26 GMT View Forum Message <> Reply to Message

I think you could make a nice speaker like you've described, small, high efficiency but with relatively high bass cutoff. I would look at something like the Omega 12 or JBL 2206 for the woofer though. The Delta's will get a bit underdamped in a box that's too small.
