Hey, I thought this forum was about Movies AND Music. This is the third night in a row that I have "Stepping Out" on, Diana Krall's debut album. The more I listen to this album, the more I'm impressed by what a talent she is. Wonderful mix of vocal and instrumental tracks. The disk also confirms for me that Jeff Hamilton is one of the best jazz drummers recording today. Look of Love? Without a doubt, one of her worst album. Can't believe that's what most people know her for. Any of the five albums before it is highly recommended. Definately more than just a pretty face. Gar.
