I've spent the last couple of evenings enjoying the theater 7 / bottlehead sex amp combo and just wanted to say what a great match I think this is, at least for my musical enjoyment. I had been listening to the 4/7 hybrid (in the corners) and I can't quite put my finger on why, but I definitely prefer the 7's to the 4/7's. To my ears, the sevens are a huge improvement over the fours and I suspect that the sixes may work even better in my small room. Thanks Wayne!
