Subject: My Bottlehead / Pi 5 channel system: getting there Posted by xcortes on Sat, 20 Oct 2007 21:43:19 GMT View Forum Message <> Reply to Message

We moved to the new house about a month ago. The speakers are done. The whole system is now setup using alternate SET amps for the center and rear channels because I still need to finish the Paramounts. Anyway, we're enjoying it a lot. Here's a picture of the front section: and the rear section:
