One of my favorites of all time. In that yearit was Ebert's #1 film. I hardly ever get tired of it...saw it about the same number of times as Blade Runner which is quite a few. Something that gets overlooked quite a bit is the made for tv adaptation of Frank Herbert's Dune. Duneand Children of Dune I have gone back to numerous timesas well. It is _my_ "Lord of the Rings." Oh yeah, here's a film that is hard to find but it shows ol' V. Mortensson before he got to play the king:it's called The Reflecting Skin directed by Philip Ridley.It's unforgettable.
