I've owned several tube amps in the past five years or so, and many of them were kits. My favorites have been the Audio Note Kit 2 and the Stoetkit Jr. MkII. I think the Audio Note Kit 1 must be very nice too, and the higher-end Stoetkits are probably great. But at \$700 for the Stoetkit and \$1300 for the Audio Note Kit 2, they're hard to beat. Neither is lacking in bass.
