
Subject: Dome tweeter with JBL 2226J?

I'm once again looking at the Morel MDT-37 horn loaded dome, 93dB efficiency with the 97dB 2226. If it's necessary to pad the woofer, how would I effect that? The Morel appears to be able to go down to 1600Hz so it would be a drop in to replace the DE-250 I'm now using. Comments?
MDT-37
