Subject: What solid filler for Theater 4 cabs...

...to turn into new 4 Pis with Omega 15s. Since I won't be able to get to building the new cabinets for the Omegas until January, I thought I'd try filling the Theater 4 cabinets with something to reduce the volume. Any ideas of something cheap and easy like an old blanket or something solid but that can be inserted through the 15" speaker hole?

Thanks for any ideas!

Garland
