Yes, sorry I was repeating. I think I tried to sit throughTime After Time once. And have seen Terry Gilliam'sBaron Munchausen, but oddly cannot remember anything of it. Isn't there supposed to be a new Around The World In 80 Dayscoming to theaters as well? What really needs a new treatment is Verne's "Master Of The World." The old one with Vincent Price is an embarrassment. Two things should havee been editied out of JohnnyMnemonic: Henry Rollins and Ice T. Only good role Ice T.ever did was playing a Jackass in Tank Girl. Henry Rollinshas had a real spotty career since the Black Flagg days.
