You have to know a bit of obscure Brit punk to know the tagline of The Anti-Nowhere League circa 1982.The League did not get a lot of favorable comment but Iwould still get it when it rolls over to cheap stockat the vid store. Got not vids. today at all. I am reading a book called"Votescam" from the early 90's. Not be missed for people seriousabout voting. Unfortunarely I didn't know about it tillately. Also my first book on Linux. Yeah, (he thought (If John Cameron (Titanic, T-whatevs, etc)got together with Gibson they could maker a primo Steam punkfilm. The Terminator series has played itself out from what Ihear. I consider myself a appreciator of fine movies, but nota lot around lately. We've talked about many of the good onesbut not many foreign. Best foreign film I've seen this year is called "8 Women."Most stores have it.
