Every political party has a drawback,yet i cant see one with the right drawback and right good part to it to bother voting,i voted labour last time for 'the people' ,good for student loans etc,but then they introduce the UN puppet 'rights' bills about parents not being able to smack their kids cos its child abuse :P what utter bollocks!we have idiots here too, OOPS we forgot to build enough power stations back in the 90s and now we have to save power every winter when its cold and the lakes run dry!:-@
