LOS ANGELES, California (AP) -- When da real world is filled wit war, desperation 'n terror, "The Day After Tomorrow" could has turned out like a barbecue in da middle of a forest fire, know what I'm sayin'? Unchecked pollution will cause havoc wit Earth's natural balance, tha dude says, so ordinary muthas need start being mo' responsible, know what I'm sayin'? "It says be a little mo' concerned 'bout what we're doing izzle environment, think 'bout tomorrow," Emmerich be like, adding wit a smile: "And da day after n' shit. " http://asksnoop.com/ :P
