Subject: Re: Hurricane Rita Posted by Manualblock on Thu, 22 Sep 2005 14:34:44 GMT View Forum Message <> Reply to Message

We have seen the best of our times/ the weather for the past hundred or two hundred years has been mild; food is plentifull; water is available; there is enough wealth so that a decent percentage of us can live without fear of starving or some other catastrophe.But if natural history tells us one thing it is that nothing stays in stasis; everything is in flux. From 1950 until 2000 are the best 50 years we may ever see.
