Not a whole lot new things going on. Think I'm going to settle into a chair and see whats on TV. I picked up a new set of pearl Masterworks 5 years ago. The toms and kick are 4 ply shells with 2 plys of maple and 2 plys of mahogany. nice tone for jazz by my liking. The snare is 10 ply maple and I keep it wound up pretty tight too. I'm enjoying the nice weather this winter. only complaint is all the really nice days are in the middle of the week! what's new for you?
